INTRODUCTION

IN introducing the 19th edition of this catalogue our primary object has been to show in as clear a form as possible the range of our products, and, wherever feasible, prices.

Whilst prices for the better-known articles have been published in previous issues, both our friends and ourselves have realised an ever-growing need for a more comprehensive edition, showing prices for all stocked sizes, both of the longer established lines and of all the articles more recently introduced but not previously catalogued.

On page xii. an index is given to the various sections into which the catalogue is divided. This will, it is felt, provide a quick means of locating any article desired, but in case of any difficulty a detailed index appears at the beginning of the book.

It has been found necessary to alter a few of the article numbers shown in previous editions, and a list of these alterations will be found on pages iv., v., and vi.; additions on pages vii. and viii., and other alterations on page ix.

INTRODUCTION—*continued*

The illustrations, with a few obvious exceptions, such as Ratchet Braces, Hat and Coat Hooks, etc., are full size, and may be used as a guide.

As regards the products themselves, the Screw Department of G. K. & N., Ltd., can look with pride on a record of dependability and good service which in every part of the globe has made the name of "Nettlefolds" come automatically to the mind whenever screws and kindred articles are mentioned. The use of modern machinery and efficient organisation have enabled us to maintain this record, and the vast resources at our disposal afford ample warrant for our confidence in the future.

Our Sales and Publicity Departments are anxious to give the very best possible service to all our friends, and any suggestions which will strengthen the connection between us, or help to extend the business in our productions to our mutual advantage will be welcomed.

Sincerely thanking you for your support in the past, and trusting to merit a continuance of your confidence.

We are,

Yours faithfully,

GUEST, KEEN & NETTLEFOLDS, LTD.

CONDITIONS OF SALE

1. The Manufacturers only do business upon and subject to the terms and conditions printed below which shall be deemed to be incorporated to the exclusion of any terms inconsistent therewith in any order received or accepted. All printed Price Lists, Quotations and Estimates are subject to alteration without notice and all orders are subject to the Manufacturers' acceptance.
2. If the Manufacturers' obligations or any of them shall be prevented, hindered or interfered with by war, strikes, accidents or *Vis Major* or by any other cause whatsoever and howsoever beyond the Manufacturers' control, the Manufacturers shall have the option to suspend or cancel any obligation then unperformed.
3. Accounts must be paid by due date strictly in accordance with the terms set out in the Manufacturers' quotation and current discount sheets, otherwise no discount will be allowed. Overdue accounts are strictly nett and liable to interest at 1% per annum above Bank Rate for the time being. While any account of a Purchaser is overdue the Manufacturers reserve the right to suspend performance of any of their obligations to such Purchaser.
4. When goods are made specially or to Purchasers' pattern, the Manufacturers claim the right to supply 10% more or less than the exact quantity ordered. Such overs or shortages will be charged for or deducted pro rata.
5. All quotations are given and goods sold subject to the conditions that the Manufacturers' liabilities are limited to the replacement of goods proved to have been defective when they left the Manufacturers' Works, and no liability whatsoever is accepted for goods proving to be defective in design. The Manufacturers will not be responsible for the failure of goods manufactured by them which have been subjected to any process or processes after leaving their Works.
6. Subject to the foregoing the Manufacturers will replace free of charge any goods which they supply and which fail, or prove to be faulty or defective, but the Manufacturers shall be under no further or other obligation or liability whatsoever for or in respect of any failure or defect in any goods whatsoever supplied or manufactured by the Manufacturers.
7. The Manufacturers will, unless express arrangements to the contrary are previously made, carry out the following procedure as to forwarding goods :—
 - (a) Where goods are sent by the Manufacturers to the Purchasers by a route involving sea transit under circumstances in which it is usual to insure, the Manufacturers will give such notice to the Purchasers as may enable them to insure them during their sea transit, but the Manufacturers cannot accept responsibility for failure to do so, and notwithstanding such failure, the goods shall be deemed to be at the Purchasers' risk during such sea transit.

CONDITIONS OF SALE—*continued.*

- (b) All goods will be conveyed free within a radius of 20 miles of Birmingham Town Hall, and all consignments weighing not less than 2 cwt. or of a nett value of not less than £10 will be forwarded free by goods train to any Station in the United Kingdom.
 - (c) Subject as aforesaid, all goods will be forwarded either by Motor or by Rail at Purchasers' risk and expense, the charge if carried by Motor to be the minimum Motor Rate or the Goods Railway Rate, whichever is cheaper.
 - (d) No allowance can be made for Carriage where goods are collected from the Manufacturers' warehouses by Purchasers or where goods are delivered to Purchasers' local depots.
 - (e) No carriage will be paid by the Manufacturers on any goods sent by Passenger Train or Parcels Post. If a consignment of the nett value of not less than £10 or 2 cwt. and over in weight is sent by Passenger Train the Manufacturers will pay carriage at goods rate only.
 - (f) All claims against Carriers with regard to damage, pilferage or non-delivery on carriage paid deliveries should be notified to the Manufacturers within 2 days of date of receipt.
 - (g) Where goods are sold for export, c.i.f. charges are paid by the Manufacturers to the nearest or customary main port upon goods of not less than £10 nett value. Goods of less than £10 nett value but 2 cwt. or over in weight are delivered free British Liner port. For quantities less than £10 nett value and less than 2 cwt. in weight, the prices quoted apply to goods at Works and carriage to the port is charged.
- 8. Packing cases are not charged for and no allowance is made if returned, but the Manufacturers are prepared to pay carriage on returned cases in good condition.
 - 9. If goods are made to Purchasers' pattern or specification, no responsibility can be accepted for the infringement of any Patent and the Purchasers agree to indemnify the Manufacturers against any loss in respect of any proceedings or otherwise resulting from the execution of the Purchasers' orders.
 - 10. If the Purchasers shall make default in or commit any breach of their obligations to the Manufacturers, or if the Purchasers shall commit any act of Bankruptcy, or shall have any execution or distress levied upon any of their goods or property, or being a Limited Company and any Resolution or Petition to wind up such Company's business shall be passed or presented, or if a Receiver of such a Company's undertaking property or assets or any part thereof shall be appointed, the Manufacturers shall have the right forthwith to determine any Contract then subsisting, without prejudice to any claim or right the Manufacturers might otherwise make or exercise.

DISCOUNT: {

IT POSITIVELY LOCKS IN 6 PLACES.

1 & 2 THE SPRING ACTION LOCKS THE TOP AND BOTTOM THREADS.

3 & 4 THE WEDGE ACTION LOCKS THE SIDES.

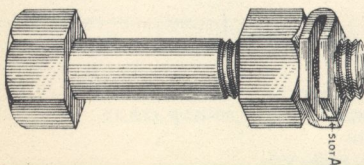

5 & 6 THE TWIST DUE TO DISTORTION LOCKS THE OPPOSITE SIDES.

TO TAKE OFF—TURN BACK WITH A SPANNER AND IT WILL COME OFF QUITE EASILY AND BE READY FOR USE AGAIN.

IT IS MOST IMPORTANT TO SEE THAT THE SLOT "A" IS FACING THE POINT OF THE BOLT AS SHOWN. TIGHTEN UP WITH AN ORDINARY SPANNER UNTIL THE LOWER SURFACE TOUCHES ITS OBJECTIVE, AND THEN GIVE ONLY ONE-THIRD TURN AND ALL THE LOCK NECESSARY WILL BE OBTAINED. ANY FURTHER TIGHTENING DOES NOT IMPROVE THE LOCK, BUT ONLY TENDS TO DISTORT THE THREAD.

NUTS CAN ALSO BE SUPPLIED TAPPED B.S.F. OR S.A.E. THREADS AGAINST SPECIAL ORDERS.

SEE CONDITIONS OF SALE ON PAGES X-XI.

RATCHET BRACES

MADE FROM
 BEST QUALITY MATERIALS
 HARDENED THROUGHOUT

SPECIAL FEATURES:

DIFFERENTIAL SETTING OF
 RATCHET WHEELS GIVES THE
 ADVANTAGE OF A WHEEL
 WITH TWICE THE NUMBER OF
 TEETH WITHOUT WEAKENING
 THE TEETH

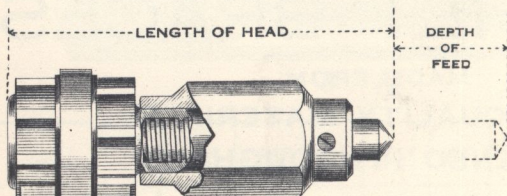

FEED SCREW IS TOTALLY
 ENCLOSED BY NUT, AND
 THEREFORE PROTECTED
 FROM DAMAGE AND DIRT.
 THIS CONSIDERABLY IN-
 CREASES THE LIFE OF THE
 BRACE

HARDENED STEEL CENTRE
 TO FEED SCREW

IMPROVED DIFFERENTIAL RATCHET BRACES "H" PATTERN

THIS BRACE WILL TAKE EITHER OF THE TWO KINDS OF DRILLS IN GENERAL USE. THE ROUND SOCKETS FOR TWIST DRILLS ARE MADE TO SIZES NAMED. DRILLS WITH SMALLER OR LARGER SHANKS CAN BE ACCOMMODATED BY THE USE OF SLEEVES (OR SOCKETS), ACCORDING TO THE MORSE SYSTEM.

ROUND SHANK DRILLS ARE EJECTED FROM THE BRACE BY SCREWING DOWN THE FEED NUT.

THE ADVANTAGES OF ONE BRACE FOR BOTH KINDS OF DRILLS ARE OBVIOUS, AND WILL BE APPRECIATED BY ALL USERS.

MILD STEEL "HANK" RIVET BUSHES FOR SHEET METAL SERRATED PATTERN

ART. NO.
1988

BRITISH PATENT NUMBERS 370948 AND 318182.

THE SUPPLEMENTARY DRAWINGS SHOWN BELOW ILLUSTRATE A TYPE OF BUSH FOR USE IN METAL SHEETS OF THICKER GAUGE THAN THOSE SPECIFIED IN OUR STANDARD HANK BUSH PRICE LIST, ART. NOS. 1983/4/5. AS THE DEMAND FOR THIS TYPE VARIES SO MUCH OWING TO THE MANY DIFFERENT THICKNESSES OF SHEET, IT IS NOT POSSIBLE TO ISSUE A PRICE LIST. THIS TYPE CAN BE SUPPLIED, HOWEVER, IN MILD STEEL, BRASS, STAINLESS STEEL AND DURALUMINUM, TO SUIT ANY THICKNESS OF SHEET METAL

—PRICES UPON RECEIPT OF SPECIFICATION.

SEE CONDITIONS OF SALE ON PAGES X-XI.

GUEST, KEEN & NETTLEFOLDS, LIMITED
WORKS: BIRMINGHAM, SMETHWICK AND KING'S NORTON

PATENT PLAIN AND HEADED SLEEVE "HANK" RIVET BUSHES

THESE TWO PATENT BUSHES ARE DESIGNED TO GIVE A FULL TAPPED HOLE IN SHEET MATERIAL OTHER THAN METAL, SUCH AS PLYWOOD, FIBRE BOARD, ASBESTOS, BAKELITE, AND SIMILAR COMPOUNDS.

ART. NO. 1986. THE PATENT PLAIN SLEEVE BUSH

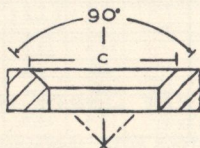

IS DESIGNED TO RIVET AT BOTH ENDS AND MUST BE USED WHEN A FLUSH SURFACE IS REQUIRED ON BOTH SIDES OF THE SHEET. IT IS ALSO CONSIDERED THE MORE PRACTICABLE WHEN A TAPPED HOLE IS REQUIRED IN SHEET MATERIAL OF CONSIDERABLE THICKNESS.

ART. NO. 1987. THE PATENT HEADED SLEEVE BUSH

IS INTENDED FOR USE PARTICULARLY IN THIN SHEET MATERIAL, WHEN SUPPORT FOR THE TAPPED HOLE MAY BE OBTAINED IN THE HEAD—WITH THIS TYPE OF BUSH IT IS, OF COURSE, ONLY POSSIBLE TO OBTAIN A FLUSH FINISH ON THE ONE SIDE. GENERALLY SPEAKING, WHEN ONE FLUSH SURFACE ONLY IS REQUIRED, AND FOR SHEETS UP TO $\frac{1}{4}$ " THICK, THE HEADED BUSH IS RECOMMENDED AS GIVING A FIRMER ANCHORAGE.

WHEN USING EITHER TYPE OF BUSH IN THE SOFTER TYPES OF SHEET MATERIAL, SUCH AS PLYWOOD, FIBRE BOARD OR ASBESTOS, IT IS ONLY NECESSARY TO DRILL THE SIZE OF HOLE REQUIRED, AS THE RIVETED PORTION WILL EMBED ITSELF TO GIVE A FLUSH SURFACE.

IN THE CASE OF THE HARDER OR MORE BRITTLE MATERIALS, IT IS ADVISABLE TO DRILL THE REQUIRED HOLE AND THEN COUNTERSINK TO THE FOLLOWING ILLUSTRATED RULE :

SIZE OF BUSH.

		C.
$\frac{1}{8}$ " WHIT.	6 B.A.	$\frac{5}{16}$ "
	4 B.A.	$\frac{3}{8}$ "
$\frac{3}{16}$ " WHIT.	2 B.A.	$\frac{7}{16}$ "
$\frac{1}{4}$ " WHIT.	0 B.A.	$\frac{1}{2}$ "

IF THIS RULE IS FOLLOWED IT WILL BE FOUND THAT THE FLOW OF THE METAL WHEN RIVETING WILL BE ACCOMMODATED IN THE COUNTERSINK TO GIVE A PERFECTLY FLUSH SURFACE. FOR BRITTLE MATERIAL THE HEADED SLEEVE TYPE IS MOST SUITABLE.

THE GROOVES IN THE RIVETING PORTION OF BOTH TYPES ARE INDENTED AND WILL DIVIDE UP EVENLY UNDER THE HAMMER TO GIVE A VERY NEAT FINISH.

FOR RIVETING THE BUSHES A HAMMER ONLY IS REQUIRED AND MAY BE USED WITH FIRM BLOWS WITHOUT FEAR OF DAMAGING THE THREADS—DISCRETION SHOULD BE USED WHEN THE RIVETED PORTION IS NEARLY FLUSH.

EITHER PATTERN IS RECOMMENDED TO SUBSTITUTE EXISTING PRACTICE AND FOR CONSIDERATION IN NEW DESIGNS CONNECTED WITH ELECTRICAL DEVICES, INSULATION, SWITCHGEAR, WIRELESS, GRAMOPHONES, VENTILATION, FURNITURE, SHIPBUILDING, AEROPLANES, MOTOR CARS, INSTRUMENTS, ETC.
